

DUKABEL DC3 USER MANUAL

TRS Male to TRRS Female Microphone Adapter

Model: DFTM-4T3-20B

Feature:

3 pole TRS male plug

4 pole TRRS female jack

Widely Compatibility

Ideal for recording devices with a standard 3.5mm connector

Only For Mic-input, No Audio-Output

Camera

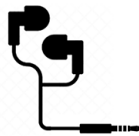

Laptop

Computer

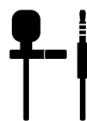

Only Work for 3.5mm TRS
Microphone Jack

4 Pole
Android Earphone

4 Pole
Gaming Headset

4 Pole
TRRS Microphone

Only Work for 4 pole TRRS
Microphone Input

Suggest to Use for:

4-pin TRRS microphones to cameras, audio recorders, and other devices with 3.5mm TRS connectors.

Notes and Warm Tips:

1. The adapter is only compatible with 4 Pole TRRS microphones, not compatible with TS or TRS microphone.
2. Can only for Microphone input transmission, DO NOT Support Audio-output.
3. The TRS-TRRS adapter is only suitable for normal lav mic, mini smartphone condenser mics, not for dynamic microphones or microphones with phantom power and symmetrical transmission.
4. Please note that the TRS to TRRS microphone converter can only support the recording devices in CTIA standard, not in OMTP standard.
