1. Product Overview:

DUKABEL USB Headset Splitter is a compact USB to 3.5 mm adapter designed with dual **TRRS 4-pole** jacks. It allows you to connect a TRRS headset and a TRRS microphone simultaneously, or split audio between two headphones/speakers.

Compatible with PC, laptop, Mac, Linux, PS4 and PS5, it is ideal for gaming, online meetings, voice recording and music playback.

2. Compatibility:

- **Supported Devices:** Desktop PCs, laptops, MacBooks, Linux systems, PlayStation 4 & 5.
- **Applications:** Gaming chat, video conferencing, streaming, voice recording, and everyday music use.

3. How to Use:

- **Insert into USB Port**

Plug the adapter into the USB port of your device.

- **Connect Audio Devices**

Plug in a headset (TRRS 3.5 mm jack) and a TRRS microphone.

- **System Setup**

On **Windows**: go to Sound Settings → select “**USB Audio Device**” as input/output.

On **macOS/Linux**: select the **USB Audio Device** in Audio Preferences.

- **Adjust Volume**

Control volume through system settings or your headset for best performance.

4. Technical Specifications:

- **Input:** USB A (male)
- **Output:** 2 × 3.5 mm TRRS (4-pole) jacks
- **Chipset:** DAC (Digital-to-Analog Converter) + Smart Sound Chip
- **Supported Systems:** Windows, macOS, Linux, PS4, PS5
- **Design:** Compact, lightweight housing
- **Color:** Grey

- Do **not work** with a headset that has separated audio and microphone plugs.
- **No** in-line control, Do Not support Pause/Play/Volume - /Volume + etc.
- Do **not** work with TS or TRS microphones

6. FAQ (Frequently Asked Questions):

Q1: Does it work with all headsets?

A: If you only want to use the **audio function**, it is compatible with all 3.5mm headsets. If you want to use the **microphone function**, it is only compatible with two 3.5mm CTIA Standard headsets, **not** compatible with OMTP or Apple Standard 3.5mm Headsets.

Q2: Do I need to install drivers?

A: No. It is plug-and-play on all supported systems.

Q3: Why is there no sound or mic detection?

A: Check system sound settings and ensure the correct USB audio device is selected. Try reconnecting to another USB port.
